DELMARVA VETERAN BUILDERS COMPLETES RENOVATION FOR THE PATIENT CONNECTION IN SALISBURY

SALISBURY, Md. – January 5, 2017 – Delmarva Veteran Builders, the region’s only commercial construction firm dedicated to bringing employment to U.S. Armed Forces Veterans, announced it has completed renovations for The Patient Connection at 105 Pine Bluff Road in Salisbury, Maryland. The 2,400 square foot medical office renovation included a complete gut and remodel with the addition of five patient exam rooms and a conference room. The Patient Connection is a healthcare treatment center providing an appropriate setting for healthcare professionals (specialists) from other parts of the area to treat patients closer to home.

“Having the opportunity to work on a project that is making healthcare more accessible to our community is a great way to kick off the New Year,” said Chris Eccleston, Delmarva Veteran Builders. “This fully functioning medical office is another example of how healthcare is moving closer to patients and we are proud to be a part of the process.”

“We chose Delmarva Veteran Builders because of the company’s veteran status,” said Melissa Graves, business manager, The Patient Connection. “One of our owners is a Veteran and it means a lot to him to be able to contribute to the veteran workforce. The team did a great job and met all unexpected challenges head on.”

Delmarva Veteran Builders project manager, Daniel Mills reported the project was completed on time and is now open for business.
