DELMARVA VETERAN BUILDERS COMPLETES VIRGINIA DEPARTMENT OF TRANSPORTATION ACCOMACK RESIDENCY VEHICLE MAINTENANCE SHOP PROJECT

SALISBURY, Md. – October, 2017 – Delmarva Veteran Builders, the region’s only commercial construction firm dedicated to bringing employment to U.S. Armed Forces Veterans, announced the completion of a new construction project for a 10,000 square foot, VDOT Accomack Residency Vehicle Maintenance Shop to be located at the corner of Rt. 13 and Courthouse Avenue in Accomack, Virginia.

“Delmarva Veteran Builders went above and beyond to respond to any concerns and deliver a quality product,” said Robert Isdell, Virginia Department of Transportation. “Their work ethic and attention to detail was top notch. The project manager and superintendent on the job did an excellent job at communicating with us on a regular basis. I wouldn’t hesitate to work with Delmarva Veteran Builders again in the future.”

The structural steel and masonry construction was used to build a single story facility equipped with offices and twelve maintenance bays for servicing VDOT vehicles. The facility also includes a runway crane, four post lifts, and a bridge and jib crane installation. Delmarva Veteran Builder’s Daniel Mills was the project manager and Fletcher Schrodtt served as the superintendent on the job.

“Having the opportunity to serve the needs of an Eastern Shore of Virginia service provider allows Delmarva Veteran Builders to expand our reach on the peninsula,” said Chris Eccleston, Delmarva Veteran Builders, president. “It was a pleasure to work with VDOT to enable them to ensure safety to travelers on Accomack’s network of roads.”
